

## **CARE Workshop**

### **Coordinating the Antenna Research in Europe**

The Final Workshop of the CARE project will be held joined with the EuCAP2012 Conference, on Wednesday March 28, h14.00-h16.20 in room Club H.

CARE aims at reinforcing the collaboration among the European Institutions involved in antenna research, with a specific emphasis on focus on the New Member States, by the following activities:

- 1) researchers secondments
- 2) international workshops
- 3) training courses
- 4) dissemination, by conferences and Internet

CARE cooperates with the European Association on Antennas and Propagation (EurAAP) in its dissemination activities.

The CARE Final Workshop will be focused on presenting the project outcomes and the research resulted from the CARE secondments.

The EuCAP Delegates are welcome, free of charge, to the CARE Final Workshop and the CARE secondees are invited to present their work, in the frame of an international conference.
