## **1. First CARE workshop**

### ***1.1. Workshop preparation***

The first CARE workshop was prepared by the CARE Partners in the frame of the EuCAP2010 conference. Thanks to the good relations with the European Association on Antennas and Propagation (EurAAP), the CARE dissemination group, led by Prof. Mosig, obtained the possibility to held the first CARE workshop during the conference week.

In particular, the CARE workshop was announced by the EuCAP advertisement and the final program is presented in ANNEX 1.

### ***1.2. Workshop results***

The first CARE workshop was announced in the opening speech and then attended by about 70 delegates attracted by the information related to the FP7 CARE project, specifically focused on the New Member States.

In particular, the possibility of accessing secondments funded by the CARE project was considered very positively.

The personal contacts established thanks to this event are expected to produce an high cross-fertilization on the CARE activities and produce a high level of excellence in the related secondments.

## 2. ANNEX1: CARE First Workshop brochure

# *Coordinating the Antenna Research in Europe (CARE) Workshop at EuCAP2010*

Dear Colleague,

Starting from the results achieved by the ACE Network of Excellence, the CARE project will continue and reinforce the collaboration among the European Institutions involved in antenna research, with a specific emphasis on focus on the New Member States.

In particular, CARE will reinforce the collaborations among the European Institutions by:

1. researchers secondments
2. international workshops
3. training courses
4. dissemination, by conferences and Internet.

CARE will also support the dissemination of the research results within the enlarged Europe, in close cooperation with the European Association on Antennas and Propagation (EurAAP).

In this frame, organises a ***First Workshop in Barcelona, on Wednesday 14 April 2010***, joined with the European Conference on Antennas and Propagation (see [www.EuCAP2010.org](http://www.EuCAP2010.org)).

With around 1000 communications, EuCAP'2010 is the European event not to be missed by our community and this first CARE event will be focused on presenting the project content and explore the collaboration opportunities.

In this frame, I am pleased to invite you to the CARE workshop to exchange applications requirements and to share the knowledge emerged the past and the current FP6/FP7 projects in antenna research. Do not hesitate to contact me for further information,

Bruno Casali

## ***Program of the CARE First Workshop***

### ***Wednesday 14 April at 15.30-17.30***

The CARE First Workshop will deal with a presentation of the project activities and will explain the collaboration opportunities across the antenna scientific community.

In detail, the workshop agenda will be organised according to the following presentations and information exchange:

- 15.30-15.45: CARE Project overview
- 15.45-16.20: CARE and the AEG on Technologies

#### Coffee Break

- 16.30-16.50: CARE and the ABPG on Software and Measurements
- 16.50-17.10: CARE and the ESoA
- 17.10-17.30: CARE Dissemination and Impact
- 17.30-17.45: Workshop conclusions
